BRAMBLES' THIRD-QUARTER TRADING UPDATE: GUIDANCE REAFFIRMED AS SALES GROWTH CONTINUES

Brambles Limited today reported sales revenue of US\$3,965 million for the nine months ended March 2014, up 6% on the prior corresponding period (7% in constant currency¹) representing continued solid growth momentum across all operating segments.

Brambles' Chief Executive Officer, Tom Gorman, said: "We are pleased to report sales revenue for the nine months ended March 2014 reflecting the resilience of our Pallets business, continued growth in the RPCs business and the execution of our diversification strategy.

"Following a strong first-half result, our third-quarter performance reflected solid underlying demand in Pallets and improved penetration in the North American RPCs operations. This more than offset the adverse short-term impact on pallet volumes of the severe North American winter and the later timing of Easter.

"We continue to expect constant-currency sales revenue growth of approximately 7% in the 2014 financial year, with Underlying Profit² within our previously stated guidance³ range of between US\$930 million and US\$965 million, at 30 June 2013 foreign exchange rates."
