Brambles' third-quarter trading update: constant-currency¹ sales revenue up 8% in first nine months of 2016 financial year

Brambles Limited today reported sales revenue of US\$4,032.4 million for the nine months to the end of March 2016², in line with the prior corresponding period, reflecting the translational impact of the relative strength of Brambles' reporting currency, the US dollar.

On a constant-currency basis, sales revenue was up 8%, primarily reflecting the same trends that drove the first-half result: new business wins, sales mix improvements and like-for-like volume growth in Pallets globally; and expansion with new and existing retailers in the European Reusable Plastic Crates (RPCs) business.

The Group continues to expect constant-currency growth in sales revenue and Underlying Profit³ for the financial year ending 30 June 2016 to be between 8% and 10%, translating to an Underlying Profit range of US\$1,015 million to US\$1,035 million at 30 June 2015 exchange rates.

Brambles' CEO Tom Gorman said: "As we stated at the first-half result in February, Brambles is in strong shape despite continued uncertainty in macro-economic conditions, because of the strength of our value proposition to customers and the disciplined execution of our long-term growth strategy."

By segment, Brambles' sales revenue for the nine months ended March was:
